Profile

Frontend Developer with experience building responsive and user-friendly web applications using **HTML5, CSS3, JavaScript, React.js, Next.js**, and **TypeScript.** Skilled in responsive web design, **RESTful API** integration, reusable UI components, and modern frontend architecture. Committed to delivering clean, maintainable, and scalable frontend applications while collaborating in **Agile** teams.

Education

Bachelor's Degree in Communication and Electronics Engineering, 09/2020 – 07/2025
Helwan University Cairo, Egypt
Grade: **Good**

Projects

Perfume E-Commerce Website 09/2026 – 09/2026
Premium E-Commerce Web Application
- Developed an e-commerce website for perfumes, applying Front-End development practices to build a user-friendly shopping experience based on project requirements and UI designs.

SurveyLand – Survey Management Platform 03/2026 – 07/2026
Responsive Survey Management Web Application
- Developed a professional survey management platform as part of a 5-member Front-End team, implementing responsive UI, reusable components, survey management, dashboards, and API integration using React, Next.js, TypeScript, Tailwind CSS, and React Query.

Professional Experience

Front-End Development Intern 09/2026 – 09/2026
Digitera – Front-End Track | EraaSoft × iCareer Remote
- Analyzed client requirements and translated them into PRDs, Epics, and User Stories.
- Applied AI-assisted development workflows using Cursor, Claude, ChatGPT, and GitHub Copilot.
- Worked with Jira, Git, APIs, Figma MCP, and Sanity CMS, while exploring cross-functional collaboration with UI/UX, Back-End, and QA teams.

Front-End Development Intern 08/2026 – 08/2026
Huma Volve Remote
- Applied React fundamentals through practical development tasks and component-based UI implementation.
- Interpreted Figma designs and applied responsive design and design system principles.
- Practiced breaking down SRS requirements into actionable development tasks.
- Explored API testing with Postman, version control with Git/GitHub, and code quality evaluation using Lighthouse.

Frontend Developer Intern (Fundamentals & Level 2) 03/2026 – 07/2026
Afaaqware Remote
- Built **20+** reusable UI components using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**.

• Applied Design System, Atomic Design, and Feature-Based MVC across **20+** reusable UI components.
• Integrated 7+ RESTful API endpoints using **Axios** and **React Query** for efficient data fetching and server-state management.
• Collaborated with a **5-member Agile team** using **Git**, **GitHub**, **Git Flow**, and **ClickUp**, while participating in code reviews.
•Performed testing, debugging, and troubleshooting across **20+** frontend components and 7+ RESTful API integrations.

Frontend Development Intern 02/2026 – 03/2026
Elevvo Pathways Remote

- Developed **4** responsive web applications using **HTML5, CSS3,** and **JavaScript**.
- Built **20+** responsive pages and UI components using **Bootstrap 5** with a **mobile-first** approach.
- Implemented **30+** interactive frontend features using Vanilla JavaScript, including form validation, search, pagination, and responsive UI interactions.
- Improved styling consistency and maintainability by implementing **15+** CSS custom properties (CSS Variables) and ensuring cross-browser compatibility.

Web Design Trainee 12/2025 – 02/2026
Creativa Innovation Hubs– National Telecommunication Institute (NTI) Cairo, Egypt

- Achieved **a 92% score** in a **120-hour** training program in **HTML, CSS, Bootstrap,** and **JavaScript**.
- Built **10+** responsive and accessible web interfaces using modern UI/UX principles.
- Delivered 3 freelance web development projects through **Kafiil** and **Nafezly**, from requirements gathering to deployment.

Technical Skills

— **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Bootstrap, Tailwind CSS, Responsive Web Design

— **API Integration:** RESTful APIs, JSON, Axios, React Query

— **Version Control:** Git, GitHub, Git Flow.

— **Architecture & Design:** Design Systems, Atomic Design, Component-Based Architecture, Feature-Based MVC.

— **Tools:** VS Code, Postman, Figma, GitHub Desktop, ClickUp.
